What are outdoor Telecom cabinets?

Our outdoor telecom cabinets are designed to protect your sensitive network equipment from harsh environments where equipment may be exposed to dust or water. For added protection, there is a water and dust proof polyurethane door joint strip.

Why do outdoor network installations need a secure enclosure?

As network infrastructures expand beyond traditional indoor environments, outdoor network installations require strong, secure, and weather-resistant enclosures to protect critical IT and telecommunications equipment.

Why are external cabinets important?

External cabinets are essential for safeguarding network and communication devices used outdoors. With high IP ratings, durable materials, and advanced cooling systems, they ensure a reliable network infrastructure under challenging outdoor conditions.

Why should you choose Canovate external cabinets?

Canovate provides high-quality external cabinet solutions that deliver secure, durable network infrastructure for outdoor environments. Constructed from materials resistant to water, dust, heat, and impacts, Canovate's external cabinets offer comprehensive protection for network equipment.

Westell offers secure, weather-tight outdoor network enclosures to protect electronic equipment for outdoor telecom networks.
