The EnergyPack P200 is a compact 10ft battery storage cabinet with 188kVA and 188kWh capacity to reduce energy costs, ideal for off-grid applications.

Efficient and Flexible: High-efficiency liquid cooling technology with the temperature difference $\leq 3^{\circ}\text{C}$; Modular design supports parallel connection and easy system expansion.

Available in both 100kWh and 215kWh capacities, this modular system integrates power modules, batteries, cooling, fire protection, and environment monitoring in a compact outdoor cabinet.

The 215 kWh Energy Storage Cabinet integrates seamlessly into industrial & commercial energy storage, distributed power stations, EV charging stations, and microgrids to deliver reliable peak ...

Discover our high-efficiency, modular battery systems with zero capacity loss and rapid multi-cabinet response. Ideal for industrial, commercial, and emergency applications, our solutions offer remote ...

AZE's All-in-One Energy Storage Cabinet & BESS Cabinets offer modular, scalable, and safe energy storage solutions. Featuring lithium-ion batteries, smart BMS, and thermal management, they're ideal ...

These systems are pivotal for applications ranging from residential energy storage, to providing backup power, to integrating with renewable energy sources, and even in supporting grid services.

The Avestel outdoor base station energy system integrates the design concept of outdoor cabinet and outdoor power supply system, with refrigeration unit, environmental monitoring, fire protection, anti ...

The 261kWh liquid-cooled BESS is an advanced outdoor energy storage cabinet designed for commercial and industrial applications. Featuring a high-efficiency liquid cooling system, it ensures ...

SUNSYS HES L is a modular energy storage system that uses 2 standard cabinets to enable 29 UL-certified

US Modular Energy Storage Cabinet

configurations, providing ideal system sizing for a variety of projects.
