The Vatican is now completely powered by a farm that sports solar panels to help shade-tolerant crops thrive. This new coupling of solar and agriculture is growing fast.

Pope Francis has unveiled a plan to transition Vatican City to solar energy as its primary source of electricity in his latest motu proprio "Fratello Sole" or "Brother Sun."

VATICAN CITY (CNS) -- Pope Francis appointed two special commissioners to start work on building an agrivoltaic system on a Vatican property outside of Rome that could supply the whole of Vatican ...

The project aims to meet the full energy needs of both the Vatican State and Vatican Radio using solar technology integrated with agricultural activity.

With the Apostolic Letter "Fratello sole," issued motu proprio, Pope Francis provides for the construction of an agrivoltaic plant in the extraterritorial zone of Santa Maria in Galeria, where ...

A solar panel system is being built on the 424 hectares of extraterritorial land in Ponte Galeria, which within a year will make the Holy See the first zero-emission state in the world.

Italy agreed Thursday to a Vatican plan to turn a 430-hectare field north of Rome, once the source of controversy between the two, into a vast solar farm. The Holy See hopes it will generate...

Pope Francis has ordered the construction of a solar power plant to supply the Vatican's electricity needs. He did so with the apostolic letter in the form of Motu proprio Fratello Sole,...

By installing solar panels in our 42 parish churches, the diocese will try to avoid 191 metric tons of carbon dioxide emissions over the next 25 years through the generation of solar power.

Italy has agreed to a Vatican plan to turn a 430-hectare (1,000-acre) plot of land north of Rome into a vast

Vatican solar off-grid system

solar farm that will generate enough electricity to meet the needs of Vatican City.
