How many MW of battery storage capacity are there in Ireland?

We currently have more than 300MWsof battery storage capacity in operation in Ireland,making it one of the largest battery portfolios in Europe. We plan to develop a pipeline of large scale battery projects,as well as additional renewable enabling technologies.

What are cellblock battery storage cabinets?

CellBlock Battery Storage Cabinets are a superior solution for the safe storage of lithium-ion batteries and devices containing them. Our practical,durable cabinets are manufactured from aluminum,and lined with CellBlock's Fire Containment Panels.

What are labtron lithium ion battery storage cabinets?

Labtron Lithium Ion Battery Storage Cabinets are engineered for secure storage and controlled battery charging environments. These cabinets feature self-closing,oil-damped doors and triple hinges for maximum structural endurance. They are constructed with a powder-coated steel body and integrated leak-proof sump for safe containment.

How sustainable is the battery industry in Ireland?

The battery industry in Ireland has gained significant attention due to the country's strategic location and commitment to sustainability. Key considerations include the regulatory framework, which is influenced by both EU directives and local policies aimed at promoting green technology and reducing carbon emissions.
