What are cellblock battery storage cabinets?

CellBlock Battery Storage Cabinets are a superior solution for the safe storage of lithium-ion batteries and devices containing them. Our practical,durable cabinets are manufactured from aluminum,and lined with CellBlock's Fire Containment Panels.

Are battery storage cabinets safe?

Without the right separation,climate,and safety measures in place,storing batteries on-site poses a dormant but potentially expensive and devastating threat to your work environment. CellBlock Battery Storage Cabinets are a superior solution for the safe storageof lithium-ion batteries and devices containing them.

What is a simple battery cabinet?

Simple battery cabinets are usually charging cabinets for lithium-ion batteries. These cabinet types are characterized by the fact that they have a charging option for rechargeable batteries /mobile devices. Depending on the battery cabinet and design,these are usually one or more 230V sockets and increasingly also USB charging sockets.

Where should lithium-ion batteries be stored?

Safety cabinetsfor lithium-ion batteries are used in many areas. Large quantities of small and medium-sized batteries are often used in commercial environments in particular,and these should normally also be stored and charged in fireproof safety storage cabinets.
