Why should you invest in a Bess project in Norway?

The delivery process unfolded seamlessly, thanks to meticulous planning and the cooperation of all involved parties. Norway's efficiency and commitment to environmental stewardship shone through, enhancing the overall experience. Our BESS holds immense potential for contributing to Norway's burgeoning clean energy landscape.

Which Bess projects are in the pipeline in Sweden?

Most BESS projects in the pipeline in Sweden are 1-hour systems, with the business case still very much centred around ancillary service markets. One of the first European-owned gigafactories for battery cell production, Northvolt's Ett was built in Sweden, and the company is collaborating with Volvo to build the country's second site.

What is Bess Powerbox by capture energy?

BESS PowerBox by Capture Energy is a stable, smart and superior energy station suitable for both corporate and industry loads as well as the flexibility market.

Se hvordan v&#229;re hurtigl&#229;destasjoner med integrert batteribasert energilagring kan dekke behovene dine for ladeinfrastruktur til elbiler. Frigj&#248;r potensialet for b&#230;rekr&#228;ftig energi med BOS Powers ...
