What types of electrical outlets are available in Morocco?

Type C outlets are one of the most widely-used electrical outlets in Europe, while Type E is common in France as well as Morocco and is compatible with Type C. Since Type C and E power outlets are compatible with each other, you'll be able to use all the outlets you come across in Morocco as long as you have one of these types.

Which power outlets are compatible with each other in Morocco?

Since Type C and E power outlets are compatible with each other, you'll be able to use all the outlets you come across in Morocco as long as you have one of these types. Type C and E outlet types have two 4mm circular prong holes, and Type E sockets have an extra prong sticking out at the top.

What is the voltage of a wall socket in Morocco?

Both wall sockets appear pushed into the wall compared to the flat-facing outlets in the U.S. The standard voltage in Morocco is 220 V, and the frequency is 50Hz. Compared to 120V and 60Hz in the United States, you'll notice that Morocco's power voltage is higher than the U.S. but carries less frequency.
