The Electrical GridPower ElectronicsSolar Plus StorageGrid Resilience and ReliabilitySince solar energy can only be generated when the sun is shining, the ability to store solar energyfor later use is important: It helps to keep the balance between electricity generation and demand. This means that developing batteries or thermal storage is key to adding more solar. See more on [energy.gov](https://www.energy.gov)

The history told me nothing why an involuntary, extremely painful spasm, is named after a horse called Charley. Charley in the UK is often spelled Charlie, a diminutive of Charles, and it's ...

Solar modules provide reliable, uninterrupted power to telecom cabinets, even during grid failures or in remote locations. Using solar power reduces energy costs and cuts diesel fuel use, ...

Why is a just a rather odd wh -word. Its distribution is very limited -- it can only have the word reason as its antecedent, and since it's never the subject it's always deletable. Consequently it ...

Thus we say: You never know, which is why... but You never know. That is why... And goes on to explain: There is a subtle but important difference between the use of that and which in a sentence, ...

Solar-grid integration is a network allowing substantial penetration of Photovoltaic (PV) power into the national utility grid.

Using PV panels lowers operational costs significantly by cutting fuel expenses and maintenance, helping telecom operators save billions annually. Solar-powered telecom cabinets ...

The cable sets are connected to a combiner box which simplifies the installation; this leads to an increase in the speed of execution of a problem-free installation.

Solar systems integration involves developing technologies and tools that allow solar energy onto the electricity grid, while maintaining grid reliability, security, and efficiency.

In the sentence "Why is this here?", is "why" an adverb? What part of speech is "why"? I think it modifies the verb "is", so I think it is an adverb.
